

# DORMAN CLIMATE CONTROL MODULE

## 599-217

Select Chevrolet & GMC work vans and medium duty trucks, 2020-96

Climate controls stopped working in your Chevy Express or GMC Savana van? This brand new direct replacement restores performance and maintains the original look and feel of certain model years, for a seamless, reliable repair.

**Direct replacement** - this HVAC control module is specially designed to match the appearance and function of the original unit in select vehicles

**Plug-and-play installation** - just remove the old module, plug in new module, and vehicle performs automatic recalibration

**Design options** - module comes with both older and newer knob designs so you can pick your preference

**100% new** - module is newly manufactured, not remanufactured, with state-of-the-art components
