

## Monroe® Magnum™ Loaded Strut Assembly\*

### Upgrade your truck!

- Specifically designed for 1/2-ton trucks
  - Variable-rate spring design\* for improved performance
  - Upgraded strut technology\* for OE-style control and handling
  - Nitrocarburized piston rod for long service life
- \*Where applicable

## Monroe® Quick-Strut® Replacement Assemblies\*

- Includes all the high-quality components required for strut replacement in a single, fully-assembled unit

## Monroe® OESpectrum® Shocks and Struts\*

- Provides an unprecedented level of handling precision and control while filtering out noise, vibration and harshness

## Monroe® Reflex® Light Truck Shocks and Struts\*

- Ideal for larger light trucks, SUVs and other vehicles with a high center of gravity to help reduce vehicle roll and dive

## Monroe® Gas-Magnum® Truck Shocks\*

- Designed for mid- to full-size light-duty work trucks and vans to provide firm control without a harsh ride

## Monroe® Suspension Conversion Kits

- Convert a vehicle's factory-equipped air or electronic suspension to a conventional suspension set-up
- Restore the factory ride height and provide a stable, comfortable ride

## Monroe® Air and Spring Adjustable Shocks

- Assists in maintaining ride height for vehicles loaded with additional weight up to 1,100 lbs. above the axle
  - Available in spring load adjusting or Max-Air® air adjusting shocks designs
- Capacity is limited by vehicle suspension, tires and transmission
