

The latest Wagner® engineering innovation for the ultimate passenger car brake pads.

Wagner OEX Car is available in more than 100 SKUs covering over 90% of domestic and foreign vehicles, 2005 and newer. Each features an advanced, customized slot design and ceramic formulation with Wagner OE25 zero copper, for best-in-class braking performance.

NEW!

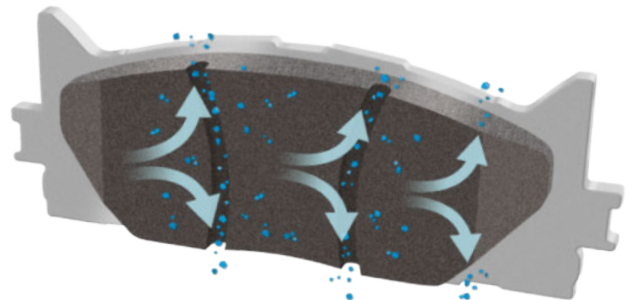

SPECIFICALLY DESIGNED FOR PASSENGER CARS

CAN LAST UP TO **2x** LONGER**

CUSTOMIZED SLOT DESIGN*
OPTIMIZES DEBRIS ESCAPE OPPORTUNITIES FOR LONGER LIFE

WagnerBrake.com

* For specified applications only.

** Results based on independent testing conducted by Link Engineering Company comparing Wagner OEX Car brake pads to competitors' brake pads on the 2017 Toyota Camry, 2011 Honda Civic, 2017 Ford Fusion. Includes Hardware.

WITH PLATE AND SHIM FEATURES THAT PROMOTE QUIET OPERATION

SUPERIOR GALVANIZED STEEL PLATES WITH MECHANICAL RETENTION

Properly treated backing plate *inhibits rust jacking and provides a better bond*

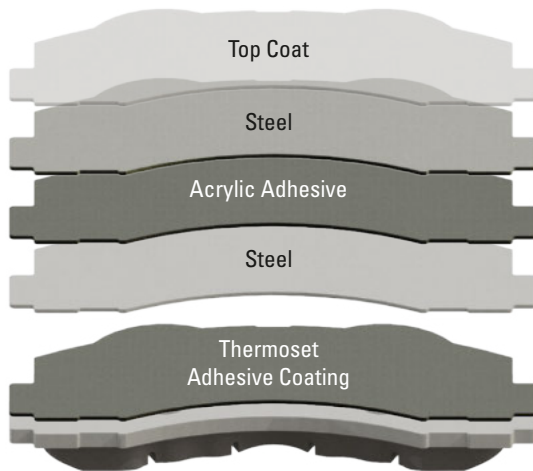

Provides *better corrosion resistance* which promotes longer life and **quiet operation**

Creates *better fitment over paint and powder coating*

OE-QUALITY MULTI-LAYERED SHIM TECHNOLOGY – QUIETEST WAGNER OFFERING

- 5 Layers to **deaden noise/vibration**

ADVANCED, STRONG AND SECURE SHIM ATTACHMENT METHODS

TABBED
Independent floating shim technology

- The locking tabs or “fingers” provide a secure attachment to the plate
- Designed to maximize attachment and **optimize anti-noise performance**

RIVETED

- Application specific
- Keeps shim in place for **quiet operation**

DESIGNED FOR FASTER TURN TIMES

Laser etching for easy part reference

Stainless Hardware

- Application specific, high quality, premium hardware included in every box
