

IF YOUR CUSTOMERS DRIVE LIKE THIS,

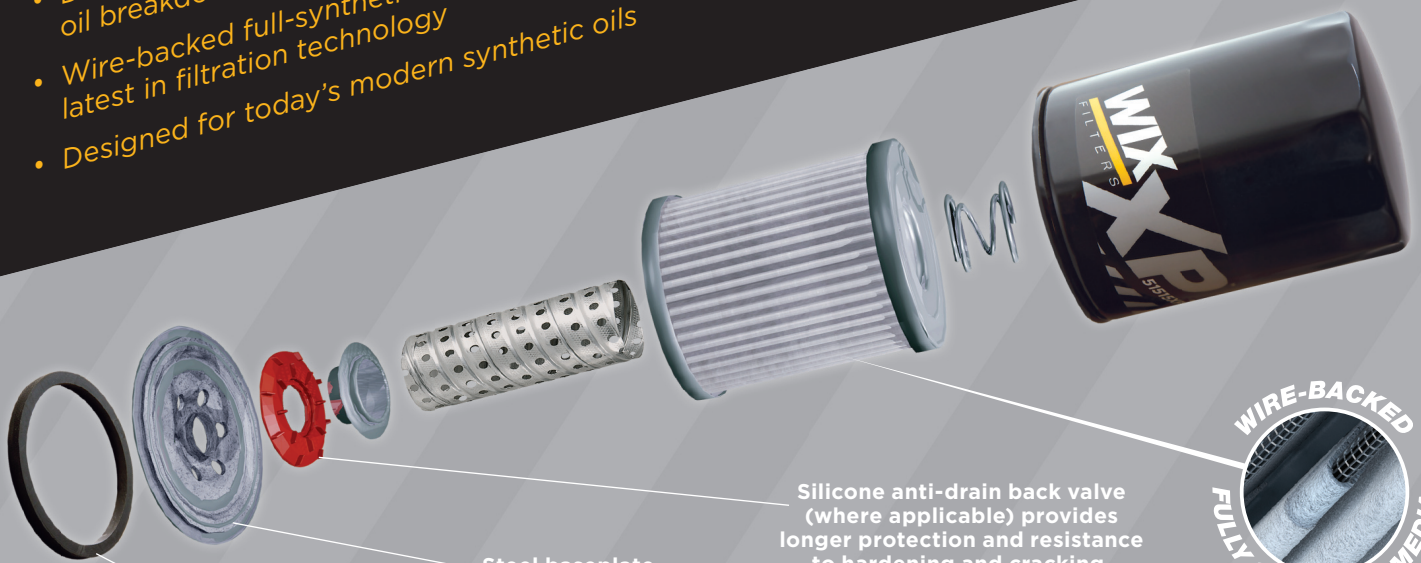

THEN THEY NEED THIS.

Engineered to withstand the toughest of driving conditions and scientifically designed to maximize the performance of synthetic motor oils, it provides optimum protection for the increased demands on today's vehicles. Heavy loads, towing, high-idling city driving and harsh driving conditions are no match for the enhanced durability of XP.

WIX XP OIL FILTER HIGHLIGHTS:

- Designed to resist premature plugging due to oil breakdown and combustion by-products
- Wire-backed full-synthetic media is the latest in filtration technology
- Designed for today's modern synthetic oils
- Made for today's longer OE service intervals
- Latest technology in filtration, both spin-on and cartridge filters available
- Provides the ultimate protection for today's modern engines with 91.8% VIO coverage

Hydrogenated Nitrile Butadiene Rubber (HNBR) sealing gasket improves durability at high operating temperatures.

Steel baseplate provides greater resistance to corrosion and wear.

Silicone anti-drain back valve (where applicable) provides longer protection and resistance to hardening and cracking.
